DOCKETED BY

Dear Commissioner Mayes,

I am writing to thank you for approving the final Energy Efficiency Standard Rule, which will help save consumers and businesses money and will also help protect our environment and public health.

The energy efficiency rule is an important step forward for our state.

Consumers will have greater opportunity to reduce their energy demand, thus decreasing their utility bill and the need for additional power generation. This, in turn, will also decrease the number of pollutants being emitted into our air and water, protecting our precious resources and also reducing public health impacts.

Thank you for working to bolster our economy, protect our environment, and defend public health!

Sincerely,

Mr. Eric & Cedra Spragett
